

## THE NATURAL ABSORBER (GRANULAR CLAY)

### FIELD ★ DRY:

- ELIMINATES SLIPPERY AND DANGEROUS CONDITIONS
- ACTS QUICKLY
- ABSORBS MOISTURE
- DRIES MUD
- KEEPS SOIL FRIABLE
- BLENDS WITH OTHER SOILS

**FIELD ★ DRY** is Inert, Environmentally Safe, Non-Biodegradable and Non-Binding

**FIELD ★ DRY** can be used by Schools, Community Centers,  
City Parks and Recreation Areas and around the home.

### FOR USE ON:

Football Fields - Baseball Diamonds - Soccer Fields - Tracks - Marching Fields  
Arenas - Livestock Stalls and Barns - and many other Sports Facilities

### FIELD ★ DRY IS EASY TO USE:

Simply broadcast or sprinkle the granules generously over the soaked area, let stand for a short time, then shovel up and remove or blend the granules into the soil base. **FIELD ★ DRY** can be ordered in various sized granules to meet the needed application. After treating the affected area, activities can resume quickly.
