

FINE SORB

MULTI•USE ABSORBENT CLAY PRODUCT

FINE SORB WORKS FASTER THAN REGULAR ABSORBENT CLAYS BECAUSE OF THE TINY ABSORBENT GRANULES. THESE GRANULES REACT FASTER AND HOLD THE SPILLED LIQUIDS MORE SECURELY. A LESSER AMOUNT OF **FINE SORB** GOES A LONG WAY TO ELIMINATE THE HAZARDS OF DANGEROUS SPILLS.

- MORE ECONOMICAL
- FASTER ACTION
- HIGHER ABSORBENCY
- SMALLER GRANULES
- ENVIRONMENTALLY SAFE
- NON-BIODEGRADABLE

CLEANS UP

WATER • OIL • GREASE • HAZARDOUS WASTE • OTHER LIQUID SPILLS
IDEALLY SUITED FOR PACKING HAZARDOUS WASTE CONTAINERS

MULTI•USES

INDUSTRIAL PLANTS - DRIVEWAYS - MACHINE SHOPS
SERVICE STATIONS - GARAGES - WASTE FACILITIES - LAND FILLS
ATHLETIC FIELDS - STEEL MILLS - AND MANY OTHERS

FINE SORB CAN BE REUSED UNTIL GRANULES ARE COMPLETELY SATURATED.

“A Traditional Standard”
